

DEC Emergency Response Mobile Command Center

Thursday, May 18th, 10am – 8pm

Orleans County Marine Park, Route 98 in Point Breeze

DEC officials will provide on-site permitting and work with property owners to address erosion, offer technical guidance and provide on-site emergency permitting to residents. This DEC assistance will augment the insurance help already being provided by the Department of Financial Services insurance help available to residents affected by the flooding.

At the Mobile Command Center, DEC staff will help answer questions on the Storm Recovery General Permit, describe the specific types of repair and stabilization work authorized, and provide assistance in completing the application form. In certain instances, based on the available information provided by applicants, DEC will provide permits on-site or expedite further review and field visits necessary to issue permits.

To obtain the required authorization under this General Permit, residents should come prepared by reading the General Permit and Application Instructions (posted on Town of Yates website; determine whether or not the proposed work is within the scope of the General Permit; fill out the Application for General Permit GP-0-17-006 and provide drawings, plans, photos (if available) and a location map.
